

# ***Automatic Wooden Door Kits***

## ***Designer and ProDoor Plus Series***

Enhance your elevator or platform lift entrance with the addition of our convenient automatic wooden door kit.

# Automatic Elevator Wooden Door Kit

## Designer Series

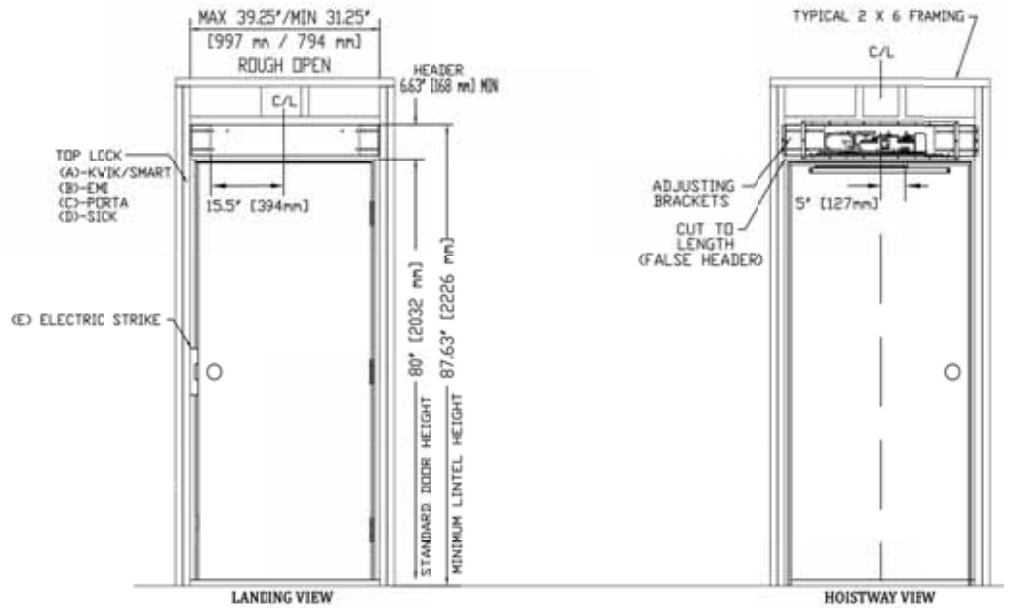

2 Panel Colonial

Your home is an investment in your future that reflects your style and taste. Installing a residential elevator brings to your home an element of convenience that adds value to your investment. The perfect way to finish off an elevator installation is to include an automatic door that compliments your homes décor and style. Choose from one of our 2 popular colonial styles or select our Roman arched style. All three say that as a home owner the details are important to you.

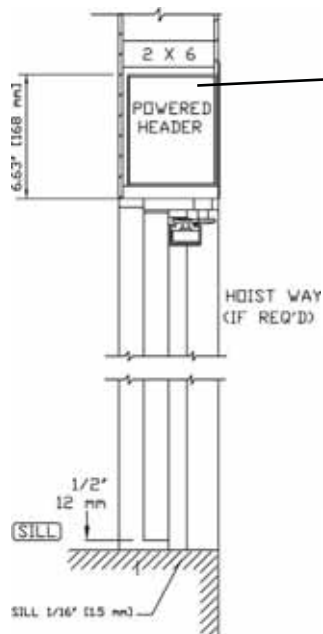

Doors are supplied with a primer-coat in white, allowing you to customize it's look to match your project's decor. These non-flush mounted door kits are pre-hung and offer the majority of lock choices as shown on the platform lift model.

6 Panel Colonial

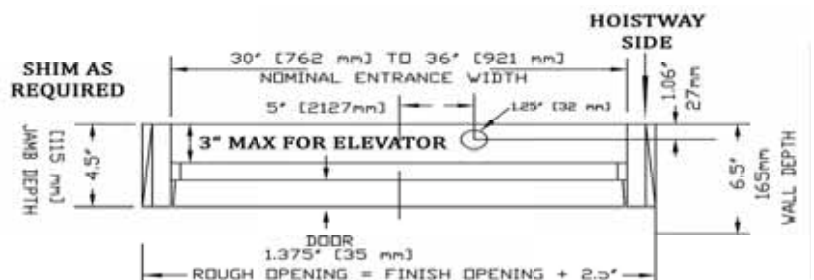

2 Panel Roman
